SUMMARY

Recent MCA graduate with expertise in Java full-stack development, specializing in Spring Boot, REST API development, and MySQL. Skilled in backend and frontend technologies with experience in building secure, scalable, and user-centric applications. Passionate about agile development, DevOps, and cloud computing. Seeking a Software Engineer role to contribute and grow in a collaborative environment.

SKILLS AND ABILITIES

Programming Languages:	Java, C, Python
Database:	MySQL, Hibernate, JDBC
Frontend Technologies:	HTML, CSS, JavaScript, React.js
Backend Frameworks:	Spring MVC, Spring Boot, REST API, Microservices
IDE:	Eclipse, Visual Studio, IntelliJ
DevOps:	Maven, Jenkins, Git, GitHub
Software Methodologies:	Agile, Test-Driven Development (TDD)
Cloud Services:	Google Cloud Platform (GCP), AWS
Soft Skills:	Strong problem-solving, adaptability, effective communication, and teamwork

EXPERIENCE

06/2024 – 09/2024 **Java Full Stack Development Intern**
Workflow SOFTWARES - Sankeshwar

- Developed a Bank Management System using Java and MySQL, implementing key features like real-time balance updates, secure PIN changes, and fast transactions.
- Designed a highly secure MySQL database to efficiently handle sensitive financial data and transaction records.
- Utilized Spring Boot for backend development, ensuring scalability and performance.
- Followed Agile methodologies and participated in code reviews, unit testing, and CI/CD integration.
- coverage standards.

EDUCATION

2022 - 2024 Master of Computer Application (MCA) | **CGPA: 8.8**
KLE Technological University - Hubballi

2018 - 2021 Bachelor of Science (BSc CS) | Percentage**: 77.88 %**
Rani Channamma University - Belagavi

PROJECT

ArtistryX – Artist & Film Management System (Demo)

- Developed a full-stack web application using Next.js, Tailwind CSS, and Spring Boot.
- Integrated JWT authentication, OAuth2 Google Sign-In, and Stripe for payments.
- Built REST APIs for CRUD operations, ensuring security and scalability.

CERTIFICATIONS

- Java Full Stack Course by KodNest, Bengaluru.
- DevOps Fundamentals by Infosys Springboard.
- Hands-on Deep Learning Training by Infosys Springboard.
